

EXCLUSIVE TECHNOLOGY TO SUPPORT HEALTHY, ACTIVE PETS[†]

Your cats and dogs aren't just pets, they're cherished members of your family. That's why we've created UltraCell™ Pet, a full spectrum hempCBD oil specifically for your furry family members!

- Easy to understand serving size based on your pet's weight.
- Delicious salmon flavor your dogs and cats will love.
- Wild-caught salmon oil, which helps support a healthy coat.[†]

THE POWER OF CBD FOR PETS Your pets have an endocannabinoid system just like you do. Similar to humans, CBD supports the endocannabinoid system of dogs and cats by promoting optimal levels of health.[†]

CATS & DOGS*

Start

with 1 drop or less per 20 lbs. twice a day.

Increase

to 1 drop or more per 20 lbs. twice a day.

Place inside the upper lip under the split between upper lips and nose.

- * **Always start low initially.** If you don't see any results after serving your animal, gradually increase the serving size until the maximum serving is met. Do not exceed the serving requirements. Always consult your veterinary provider prior to use.

HORSES*

500 lbs. or less

2 drops — 4 drops
1 - 2 times per day.

500 lbs. — 1,000 lbs.

2.5 drops — 5 drops
1 - 2 times per day.

1,000 lbs. — 1,500 lbs.

3 drops — 6 drops
1 - 2 times per day.

Place in the "gutter cup" of the lower lip or at the corner of mouth where lips meet.

CHOOSE THE BEST FOR YOUR PET

As we all know, oil and water don't mix. It's a widely known fact that oil-based supplements are poorly absorbed by the body. Our full spectrum hemp-derived cannabinoids are formulated with proprietary UltraCell™ technology for enhanced absorption.[†]

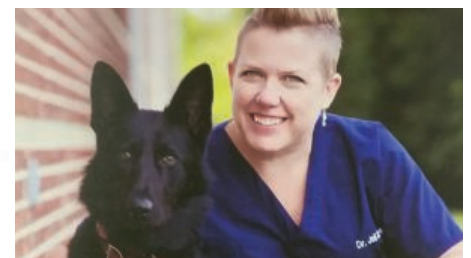

While side effects for cats, dogs and horses using UltraCell™ are rare, keep an eye out for the following situations:

Symptom	Looks Like	Action
Hyper-agitation	Restlessness; pacing; body tension; jumpiness; growling; cowering; flicking tail quickly.	Lower serving.
Hyper-sedation	Drowsiness; loss of coordination; dry-mouth; lowering head; leaning on something; lack of balance; loss of appetite.	Lower serving.
Hives / Rash	Itching; scratching; bumps; welts.	Stop usage. Seek emergency veterinary care.
Respiratory / Breathing Issues	Gasping; wheezing; swollen lips/tongue/mouth.	Stop usage. Seek emergency veterinary care.

[†]These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

This product is derived from industrial-hemp and contains a total delta-9-tetrahydrocannabinol concentration that does not exceed 0.3 percent on a dry-weight basis.
